Bathurst District - Office
Perth 26th May 1841

Sir
In the enclosed return
will name a place called
East

I am in receipt of your letter of the 20th inst
requesting an explanation of locations N^o 59 and N^o 66
in my list of locations for the District of Bathurst as
exhibited in my returns for Quarters - ending 31st Decem-
1840 and 31st March 1841

In explanation, I beg to state that location N^o 59
on my return up to 31st Decem: last in name of J. M. Dwyer
an U. E. Loyalist was for 13 in 7th Concession West of N. Lake
and N^o 66 in name of W. L. Bowen was for Thirteen
East of Newcastle Lake and I have it so marked in
my Book of Locations and on the Plan - Should it
be otherwise in my Returns, it must have arisen
from an error in copying for which I am exceedingly
sorry - As however I carefully compare my returns
with the Book of Locations after being made out I
did not expect that such would have happened

I have the honor to be
Sir

Your Obedient Servant
