Dear Jack,

Yours of 2^d
rec^d Geo. Campbell will go
out track after next & stay out
till he gets you a good driv-
ing team.

He has to go to Tem-
iscamouan tomorrow for a few
days to look over some timber.

He has already looked at
some horses, but none ^{where}
here up to what he want.

He will have to pick them
up separately & match them.

He has heard of one horse
on the Colinet Island and
another at Bryson & will get
them hitched up & tried.
