

30 Cooper St.
Ottawa

Jan 12th 1919

Dear Jack,

I hope Joan is better today. I could not phone today on account of the Brockburg office not being open on Sunday.

When I hear that you have 15 horses at the farm to feed there is no use sending the big team up before spring. We are selling the old Will team & use the heavy team for awhile.

I am glad to know there is beaver hay. I thought the water was too high last summer to permit of it being cut.

Horses do just as well on it as timothy. Beauty will be far better in the barnyard than the stable.

I can see that you will ultimately have to let Jones' family go - but that will be time enough when we have arranged for you to become owner of the farm stock

Sorry to hear that according to your
letter of Sat Joan is not improv-
ing. Your Mother will get you
by phone today to find out how Joan
is. I wonder if the fall you said
she got had have anything to do with
her condition.

Monday

I. B. F.

We will try to arrange this in the
spring. It may be well for you
to keep the Hickeys on.

As soon as I get the driving
team I will go up.

I have written to D Greenman
of the Agricultural College of
to see if a student can be sent to you
in March. One who has the proper
knowledge of preparing for a good
garden.

You can transfer your Bank
acc to Westmeath. I will tell Alex
to remit there instead of to the Bank
here.

I expect Campbell back tomorrow
and will get him to go out and look
up a team.

Hoping to hear good news of
Joan tomorrow

your own affect. father

I. B. F.
